Warranty Terms

Dear customer!

Watts Battery is grateful for your choice and guarantees the high quality and impeccable functioning of this product in compliance with the rules of its operation.

Additions to the instruction manual.

When buying, we kindly ask you to carefully study the basic operating instructions and check the correctness of filling out the product description and information about the seller. In this case, the serial number and model name of the product you purchased must be identical to the entries in Article 2 of this document. It is not allowed to make any changes to the marking of the serial number of the product, this document, or a violation of the integrity of seals installed on the case. In the event of incorrect or incomplete filling as well as missing seals, contact the seller immediately.

This device is a technically complex household product. With a careful and careful attitude, it will reliably serve you for many years. During operation, avoid mechanical damage, ingress of foreign objects, liquids, insects, during the entire service life; ensure the safety of the label with the designation of the model name and serial number of the product. Damage or lack of a marking sticker can cause a longer service and repair period.

Devices of models WBX 1 and higher are equipped with modern communication and consumer information components. **For communication, an Internet connection via Wi-Fi is used, make sure that the device is turned on and connected to your Internet connection via Wi-Fi for at least 15 days in a calendar month (instructions in the section on connecting the device to Wi-Fi). If this connection is not provided by you, the warranty is limited.*** If during the operation of the device you consider that its operation parameters differ from those set forth in the operating instructions, we recommend that you contact the organization that sold you the goods or any Authorized Service Center whose addresses and phone numbers are listed in the appendix to this warranty. Replaced blocks and spare parts can be either new or remanufactured.

Warranty Terms.

Service life: 10 years

Warranty period: 7 years

*Limited Warranty: 2 years

End of Life

At the end of the service life, contact an Authorized Service Center to carry out preventive maintenance and receive recommendations for further operation of the device.

In order to avoid possible misunderstandings, keep during the service life the documents attached to the goods when they are sold (sales receipt, instruction manual, conditions for fulfilling the warranty obligations "guarantee").

Free after-sales service

The free service and warranty repair service is provided exclusively at authorized service centers. Free after-sales service includes free repairs with free replacement of necessary spare parts.

The term of free service is established from the date of transfer of the goods to the consumer and is limited to the warranty period.

The following are not subject to free service and repair under warranty:

The accessories and accessories of the product listed below, if their replacement is not connected with the dismantling of the product using special technical means and is provided for by the design:

- Connection cables, external power supplies, connection devices, switchboards and boxes;
- Software installed on smartphones, storage media of various types (CD, DVD disks, memory cards, disks with software and drivers, etc.);
- Covers, belts, bags, packaging, documentation attached to the product;
- Advertising and (or) promotional items (Clothing, wearable electronics, printing products, branded advertising products)

Confidential and Personal Information

Watts Battery is not responsible for the loss by the user when using the device of any confidential or personal information.

Service

Periodic maintenance of the product (replacement of batteries, filters, indication lamps, cleaning of internal components, replacement of the housing, etc.) at the initiative of the consumer outside the scope of warranty is carried out for an additional fee at Authorized Service Centers.

Warranty Limitations

The warranty and free service does not apply to the device, the disadvantages of which arose because of:

1. Violation by the consumer of the rules of operation, storage or transportation of goods.
2. The action of third parties:
 - repair or making unauthorized by the manufacturer of structural or circuit changes unauthorized persons;
 - deviation from the State Technical Standards and the norms of power, telecommunication and cable networks;
 - improper installation and connection of the product;
3. Force majeure actions (natural disasters, fires, lightning, etc.);
4. The impact of malware (such as computer viruses);
5. The results of incorrect BIOS updates (system updates), software that led to inoperability of the product, both by the user and unauthorized persons.
6. Use of the product for business.

If the warranty period of your device has expired, call the support service by phone **+1 (775) 525-0301** (call according to the conditions of your tariff). Our experts will be happy to help you choose the best service depending on the model of the device and your location.
